

DECLINE IN SEPTEMBER MOVEMENTS FOR MANY ANSPs

➤ IFR MOVEMENTS: SEPTEMBER 2009 VS. SEPTEMBER 2008

September movements are below previous year's levels for many ANSPs, although a handful controlled slightly more this year.

AZANS, the ANSP for Azerbaijan, controlled just under 25% fewer movements compared to the same period last year.

Contrastingly, Sakaeronavigatsia, the ANSP for Georgia, controlled just over 22% more movements this September.
